SUMMARY

I am a Telkom University graduate with a Bachelor's in Informatics and a Master's in Management, focusing on Digital Forensics and Information Security. I have experience in iOS system security, project management, and developing iOS applications, cloud services, and automation systems. My skills include system administration, security testing, and network analysis. As a published researcher, I am committed to leveraging technology for innovative solutions.

EXPERIENCE

Ministry of Communication and Information Technology – Jakarta, Indonesia
